

ANNOUNCING:

DRONE PILOT LICENSING TRAINING PROGRAMS ARE NOW AVAILABLE!

The NUITF has partnered with Pro Tech Skills Institute (PTSI) and Unmanned Safety Institute (USI) to deliver world-class USI ASTM-approved drone pilot license training to the utility (and other non-construction) industries.

Questions? Reach out to NUITF Executive Director Mark Baker at ExecDir@nuitf.org or on his cell phone (call or text) at (202) 568-3819.

Program Overview

We have partnered with Pro Tech Skills Institute (PTSI) and Unmanned Safety Institute (USI) to offer a professional certification program that prepares learners for the unmanned aircraft systems (UAS) workforce.

Through a combination of online self-paced coursework, instructor-led virtual sessions, and in-person hands-on training, these courses and certifications validate that program graduates demonstrate mastery of the procedures and professional standards required to operate UAS safely and effectively.

Whether you are looking to use drones as a tool in your industry or you'd like to have a full-time career in the UAS industry, there's no better time to take advantage of these 12-week training opportunities.

Rolling start dates are available every month. Please reach out using the contact information below to get started today!

Professional Remote Operator Program

- Drone Technology Fundamentals
- UAS Safety and Regulations
- Topography and Weather
- Aeronautical Charts
- Human Factors
- Aeronautical Decision-Making
- Checklist Discipline
- Standard Operating Procedures
- Mission Planning
- Software Navigation & Troubleshooting

Click [here](#) or go to <https://nuitf.matrixlms.com/> to start the enrollment process.

Questions? Contact NUITF Executive Director Mark Baker at (202) 568-3819 or by email at ExecDir@nuitf.org.

UAS / DRONE TRAINING COURSES

Professional UAS training featuring USI ASTM-approved tracks

1. Commercial Remote Pilot Prep

(Part 107 Prep)

FAA Part 107 preparation course covering regulations, meteorology, airspace, and aeronautical decision-making.

**FAA Part 107 testing fee not included.*

- Online - \$99
- Virtual - \$299
- In Person - \$550

2. UAS Maintenance Technician Track

USI ASTM-approved training focused on UAS systems, inspections, corrective maintenance, and maintenance program management.

\$4,500

3. Professional Remote Pilot Track

USI ASTM-approved training that develops job-ready remote pilots through mission planning, safety systems, simulation, and structured flight activities.

\$4,500

4. Advanced USI PRO Track – Beyond Visual Line Of Sight (BVLOS) Operations

Advanced training in automation management, expanded regulatory frameworks, and highly autonomous operations.

\$5,500
